Maria's Overall Summative ELPAC Score

Level
3

Maria has **moderately developed** English skills and can sometimes use English to learn new things in school and to interact in social situations. Maria may need help using English to communicate on less-familiar school topics and in less-familiar social situations.

The score range for grade six is 1150–1900. A score of 1567 or higher is considered proficient in English for grade six.

What is the Summative ELPAC, and why is it administered?

The Summative English Language Proficiency Assessments for California (ELPAC) is used to measure progress toward English proficiency. The Summative ELPAC measures how well students can listen, read, write, and speak in English. This information helps educators provide students the resources they need to be successful.

What do the scores mean?

Students receive an overall score and performance level. There are four different performance levels. The overall score is a combination of the two performance areas (on the next page). Students who are English learners will continue to take the ELPAC until reclassified. These results provide a measure of where students are in the development of their knowledge and skills. Assessment results are only one measure and should be combined with other information to better understand student performance.

If you have any questions about the assessment or your child's results, you may contact your child's teacher for more information.

For more information about these tests, including resources you can use to support your child's learning at home, visit <https://ELPAC.StartingSmarter.org/>.
