Introduction and Notes

This document contains the file layout and data definitions for the 2024–25 Summative English Language Proficiency Assessments for California (ELPAC) and the Summative Alternate ELPAC administered by a local educational agency (LEA). The data includes student demographic information, test scores, test settings, test administration information, and historical scores. In addition to the file layout, the following reference tables that define the code sets and rules for selected fields are provided in the [Reference Tables](#) section:

- Primary Language Codes
- Common Education Data Standards (CEDS) Language Codes
- Primary Disability Codes
- Tested LEA Reporting Rules
- Condition Code Rules
- Condition Codes
- Attemptedness/Completion Status Codes
- Include Indicator Rules
- Include Indicators for Reporting
- Scale Score Ranges
- Student Move Reporting

The notes in this section provide important information concerning key elements of the file layout.

What's New in 2024–25 for the LEA Downloadable File

Updated Fields

- New Primary Disability Type has been added:
 - DEAF: deafness
- New CEDS Language Code has been added:
 - ZXX: No Linguistic Content
- New Primary Language Codes have been added:
 - ASE: American Sign Language
 - ZXX: No Linguistic Content
- The definition of CEDS Language Code SGN has been updated to Other Sign Languages, American Sign Language.
- The definition of Primary Language Code SGN has been updated to Other Sign Languages.
- Field 6—Student ID Number (Local ID) field length has been increased to 20.
- Field 29—CALPADS Primary Disability Type field length has been increased to 4.
- Field 30—Primary Disability Type for Testing field length has been increased to 4.
- Field 40—Military Status has been updated to CALPADS Military Status.
- Field 41—Foster Status has been updated to CALPADS Foster Status.

- Field 42—Homeless Status has been updated to CALPADS Homeless Status.
- Field 43—Economic Disadvantage Status has been updated to CALPADS Economic Disadvantage Status.
- Field 53—Reporting Ethnicity has been updated to Ethnicity for Testing.
- Field 370—LTEL or ARLTEL has been added.
- Field 371—Migrant Status for Testing has been added.
- Field 372—Military Status for Testing has been added.
- Field 373—Foster Status for Testing has been added.
- Field 374—Homeless Status for Testing has been added.
- Field 375—Parent Education Level for Testing has been added.

Student demographic data is derived from the California Longitudinal Pupil Achievement Data System (CALPADS) and reflects student demographics as captured in the demographic snapshot. Demographic snapshots for students who tested occur at the time that the student starts testing or, for an alternate assessment, when the student’s score becomes available for reporting in the Test Operations Management System (TOMS). For students who did not test, the demographic snapshot is taken after the testing window closed. Note that the source for each field is indicated in the file layout.

Data sources for the student data file are as follows:

- CALPADS—Extracted from CALPADS
- Scanning—Based on marked information from the Answer Book
- Derived—Created during generation of the student data file
- Scoring—Created as a result of scoring
- TOMS—Extracted from TOMS
- Group Identification Sheet (GIS)—Extracted during processing of the GIS that accompanied Answer Books for scoring

About the LEA and State Student Data Files for the Summative ELPAC and the Summative Alternate ELPAC

- Student records will be included in the downloadable state and LEA student data files for every valid registration for each test program, regardless of whether the test results are available.
- The Summative ELPAC and Summative Alternate ELPAC state and LEA student data files for the Student Score Report (SSR) quality-control production release will contain demographic data based on
 - the latest CALPADS file when the data is pulled;
 - the demographic snapshot rules described for each of the demographic fields in the student data file layout; or

- students who were exited from CALPADS, and the demographic snapshot was taken.
- There are exceptions that will prevent student records from appearing in the state student data file data set because of edit and resolution processes.
- The end-of-year state student data file is a complete operational file for both the Summative ELPAC and the Summative Alternate ELPAC that includes 100 percent of the student population eligible for the tests. When the final file is produced, all data has been reconciled from end to end, starting with the Test Delivery System (TDS) through to the scoring and rating processes, and through all reporting systems.
- Downloadable LEA student data files will be available (for both tested and enrolled LEAs) after receiving California Department of Education approval of the production SSR release.
- However, the demographic snapshot will be saved when the first summative testing event is received for the student and will continue to be updated daily throughout the Summative ELPAC testing window in the 2024–25 test administration year.

Score Data

The Summative ELPAC score data includes (1) the overall scale score and performance level and (2) the oral and written language composite scale scores and performance levels. Conditional standard errors of measurement (CSEMs) are provided for oral and written language scores. Performance levels of “beginning to develop,” “somewhat/moderately developed,” and “well developed” are provided for the Listening, Speaking, Reading, and Writing domains.

The Summative Alternate ELPAC score data includes the overall scale score and performance level. Performance levels of “Novice English Learner,” “Intermediate English Learner,” and “Fluent English Proficient” are provided.

Test Administration Data

Test administration data includes flags and condition codes describing specific elements of test administration. These include flags for attemptedness codes, Include Indicators, accommodations, and testing irregularities that occurred during the administration.

Treatment of Students in Nonpublic, Nonsectarian Schools for Data Aggregation

The school-level data for nonpublic, nonsectarian schools (NPSs) is removed from the aggregate data published on the Test Results for California’s Assessments public web reporting site; this data will not be searchable or appear in the aggregate reporting. The county, LEA, and direct funded charter school totals continue to include the students attending NPSs in their aggregate data. If the *Special Education District of Accountability* field is populated in the student’s data record, then the student record is aggregated to the county-district-school code or direct funded charter school code provided.

Fields of Note

The following fields are of particular importance:

Field #	Section	Additional Explanation
1	Assessment Type	Each record in the file will have an <i>Assessment Type</i> in field 1 that identifies the assessment taken. Only summative records are included in this file.
2	UIN (Unique Identification Number)	The UIN, which is unique for every record in the file, may be used to join the records together so that all student information can be matched.
62–68, 71–77, 80–86, and 89–95	Test Details—Testing Locations	<ol style="list-style-type: none"> These fields show the LEA name from the TDS where the test was submitted online by the student for the computer-based tests, regardless of whether the student moved. LEA and school information are from the GIS returned with the student Answer Books for the PPTs. If the student did not test or partially completed the test, this field will be populated with the district, school, and charter codes where the student was enrolled or registered.
69, 78, 87, and 96	Testing Start Date	<ol style="list-style-type: none"> The <i>Testing Start Date</i> fields shows the date on which the student started testing online with the computer-based tests in the TDS. The <i>Testing Start Date</i> is filled in on the Answer Book for the PPTs. A blank value is acceptable only for students who did not test or were assigned a domain exemption for the domain.
70, 79, 88, and 97	Testing Completed Date	<ol style="list-style-type: none"> The <i>Testing Completed Date</i> fields shows the date on which the student completed or submitted the computer-based tests in the TDS. The <i>Testing Completed Date</i> is filled in on the Answer Book for the PPTs. A blank value is acceptable only for students who did not test or were assigned a domain exemption.
118	Condition Code	A special condition code indicates the presence of a particular circumstance during testing. Refer to the Condition Codes (Field 118) reference table for a list of codes included in this field. Only one condition code can be applied per record type.

Field #	Section	Additional Explanation
119	Attemptedness	This flag designates students as either partial-completion or completion. Refer to the Attemptedness/Completion Status Codes (Field 119) reference table for definitions of the statuses.
120	Include Indicator	Include Indicators, when set, indicate how a test result will be treated for reporting the number of students tested, determining which students and scores are included in the aggregated data. Include Indicators also show whether or not a student has taken a required test. Refer to the Include Indicators for Reporting (Field 120) reference table for more information.
146–148	Conditional Standard Error of Measurement (CSEM)	A random variation in individual scores that is quantified through the use of a statistic of measurement precision is called the CSEM. CSEMs are shown in bands or ranges. Note that the CSEM included with student test data is presented as a three-digit number. This number has been rounded up from a decimal to a whole number. CSEMs are provided for oral language and written language.

Tested LEA Reporting Rules

The following sections describe the tested LEA reporting rules for student data files, aggregate files, and public web reporting.

Summative ELPAC LEA Student Data File Reporting Rules for Student(s) With Multiple Tested LEAs

1. For the computer-based assessment or PPT emergency form entered into the DEI (grades three through twelve), a student will be reported under the last tested LEA received for the computer-based domains.
2. For K–2, a student who tested in the PPT Writing domain and in the computer-based Listening, Speaking, and Reading domains will be reported under the last tested LEA for the computer-based assessments.
3. For K–2, a student who has not tested in at least one computer-based domain but who tested in the PPT Writing domain will be reported under the tested LEA received from scanning.
4. For the PPT emergency forms for K–2, a student will be reported under the tested LEA received from scanning.
5. A student who is assigned domain exemptions to one domain in each composite and has no logon to the nonexempted domains will be treated as not tested and reported under the enrolled LEA. This is applicable to all grade levels or grade spans.
6. Students are reported under the LEA where they last completed a non-exempted domain.
7. A student who did not test will be reported under the enrolled LEA.
8. A student record will be present only in the final tested LEA student data file per the rules mentioned before if the student tested in multiple LEAs.
9. The final tested LEA will be used for aggregate files and the Test Results for California's Assessments website at <https://caaspp-elpac.ets.org/elpac/>.

Summative Alternate ELPAC LEA Student Data File Reporting Rules for Student(s) With Multiple Tested LEAs

1. All tested and partially tested students will be reported under the last tested LEA.
2. A student who did not test will be reported under the enrolled LEA at the end of the testing window.
3. A student record will be present only in the final tested LEA student data file per the rules mentioned before if the student tested in multiple LEAs.
4. The final tested LEA will be used for aggregate files and the Test Results for California's Assessments website at <https://caaspp-elpac.cde.ca.gov/elpac/Default>.

Condition Code Rules

Condition codes are used by LEAs and the TOMS team to identify a special condition in a student's test record for reporting, such as setting Include Indicators. Condition codes are derived by TOMS and are visible in the TOMS user interface.

1. The EXD condition code is derived on the basis of one or two domain exemption(s) assigned to the student's domain in TOMS.
 - a. Exemption results in a no score with an "NS" value assigned by the scoring system. The EXD condition code is reported in the student data files.
2. The NT condition code is assigned when a student who is eligible to test with the Summative ELPAC or Summative Alternate ELPAC did not test, and the student's ELAS did not change from EL to non-EL.
3. Only one condition code can be applied per student.
4. Condition codes appear in the production state student data files and the LEA student data (downloadable) files.

Condition Codes (Field 118)

Test	Code	Description	Derived From	Resulting Score	Comment
Summative ELPAC	EXD	Exempt Domain	This code is used when, within a composite, only one of two domains is selected as exempt for the student on the test assignment screen in TOMS.	A calculated score is assigned to the composite using the nonexempt domain for that composite; the resulting composite score is used to derive the overall score.	N/A
Summative ELPAC	NT	Not Tested	This is the default condition code when valid eligibility is present, the student did not test, and the student's ELAS did not change from EL to non-EL by the end of the testing window.	The student is present in the student data file with no score; no SSR will be generated.	The NT condition code is applied to Summative ELPAC eligible students as a closing event, at the end of the statewide testing window and when all student scores have been imported into TOMS.
Summative Alternate ELPAC	NT	Not Tested	This is the default condition code when valid eligibility is present, the student did not test or no score was present, and the student's ELAS did not change from EL to non-EL by the end of the testing window.	The student is present in the student data file with no score; no SSR will be generated.	The NT condition code is applied to Summative Alternate ELPAC eligible students as a closing event, at the end of the statewide Summative Alternate ELPAC testing window and after all eligible student scores have been imported into TOMS.

Attemptedness/Completion Status Codes (Field 119)

Test	Attemptedness/Completion Status	Description and Rules
Summative ELPAC or Summative Alternate ELPAC	P	For the Summative ELPAC, partial completion is assigned to students who logged on to one or both domains in the same composite but did not log on to at least one domain in each composite. For the Summative Alternate ELPAC, partial completion is assigned to students who completed fewer than one expressive and one receptive item. No SSR will be created for students who received an attemptedness value of “P”. The student record will be included in the student data file as tested with an “NS” overall scale score.
Summative ELPAC or Summative Alternate ELPAC	Y	For the Summative ELPAC, completion is assigned to students who logged on to at least one domain in each composite. For the Summative Alternate ELPAC, completion is assigned to students who completed at least one expressive and one receptive item. An SSR will be created for students who received an attemptedness value of “Y”. The student record will be included in the student data file as tested with a numeric overall scale score.

Include Indicator Rules

Include Indicator allowable values are “N”, “T”, and “Y”. To determine the Include Indicator for the Summative ELPAC or the Summative Alternate ELPAC, follow the logic steps provided:

1. If the condition code is NT, then output a value of “N” and STOP; if this condition is not met, proceed to step 2.
2. If the attemptedness is “P”, then output a value of “T” and STOP; if this condition is not met, proceed to step 3.
3. If the overall attemptedness value is “Y”, then output a value of “Y” and STOP.

Include Indicators for Reporting (Field 120)

Include Indicators are used to determine which students and scores are included in the aggregated formulas. Include Indicators are set for each test.

Code	Meaning
N	The student did not test.
T	The student tested and did not meet the participation rule or received an attemptedness value of “P” from the scoring system.
Y	The student completed the test, received a valid score, or received an attemptedness value of “Y” from the scoring system.

Scale Score Ranges

Summative ELPAC

Tested LEA Reporting Examples

This table provides information on scenarios when a student has moved between the LEAs or schools between the domain testing. It shows test modes of computer-based and PPT (emergency form). A student who did not test appears as NT.

Summative ELPAC Tested LEA Reporting Examples

Test Mode	Grade Levels	Listening	Speaking	Reading	Writing	Reporting	Final Test Completed Date	SSR Test Date
Computer-based and PPT	3–12	Day 2	Day 1	Day 2	Day 3	The tested LEA and school for the Writing domain will be reported as the final tested LEA and school.	Day 3	Day 3
Computer-based and PPT	3–12	NT	Day 1	Day 2	NT	The tested LEA and school for the Reading domain will be reported as the final tested LEA and school.	Day 2	Day 2
Computer-based	K–2	Day 1	Day 1	Day 2	Day 3	The tested LEA and school for the Reading domain will be reported as the final tested LEA and school.	Day 2	Day 2
Computer-based	K–2	NT	NT	NT	Day 1	The tested LEA and school for the Writing domain will be reported as the final tested LEA and school.	Day 1	No SSR
Computer-based	K–2	Exempt	NT	NT	Day 1	The student will be reported under the LEA where the Writing domain is completed. (This is scanned.)	Day 1	No SSR
PPT	K–2	Day 1	Day 1	Day 1	Day 1	The student will be reported under the LEA where the Answer Book was received from the GIS.	Day 1	Day 1
Computer-based and PPT	3–12	Day 2	Exempt	Day 1	Exempt	The student will be reported under the LEA where the Listening domain is completed.	Day 2	Day 2

Test Mode	Grade Levels	Listening	Speaking	Reading	Writing	Reporting	Final Test Completed Date	SSR Test Date
