

Student Score Reports for CAASPP and ELPAC have been redesigned!

Starting with the 2023–24 summative tests, students and families will receive redesigned Student Score Reports (SSRs) for the California Assessment of Student Performance and Progress (CAASPP) and the Summative English Language Proficiency Assessments for California (ELPAC). These redesigns were guided by feedback from students, parents, and educators.

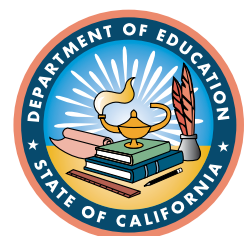

The redesigned SSRs include the following improvements:

- **New look and organization:** A cover page will offer an overview of the assessments, explain what the scores mean, and include QR codes and hyperlinks for convenient access to additional information and resources.
- **Improved results comparisons:** School and state comparisons will be included for English language arts/literacy (ELA), math, and science. This can help students and families make meaning from test results.
- **More detailed results for ELA and math:** Additional detailed information on student performance for ELA and math will be available. For example, in ELA, student essay scores have been added to support a better understanding of student writing performance.
- **Lexile® and Quantile® measures:** These measures are based on student scores from the Smarter Balanced ELA and math tests.

Sample CAASPP SSRs can be found on the CAASPP Starting Smarter website at <https://ca.startingsmarter.org/> and sample ELPAC SSRs can be found on the ELPAC Starting Smarter website at <https://elpac.startingsmarter.org/>.

Redesigned SSRs for the Initial ELPAC and the Initial Alternate ELPAC will be available beginning with the 2024–25 school year.
